

Request for Change (RFC)

Introduction and Instructions

OSCRE invites anyone wishing to suggest an official change to an OS CRE publicly-available standard or document to use this form to submit single or multiple Requests for Change. All submissions are subject to OS CRE's Intellectual Property Policy. Please also review the full Request For Change Procedure.

Complete all areas of the form to the fullest extent possible. If you have questions or need help finding or interpreting information that is available from OS CRE.org please contact ChangeRequests@OSCRE.org.

Mandatory Information

Submitter must provide the following information in order for the Change Request to be considered

* Name:	Mick Flynn
*Organization you are representing in making this request.	Trace Solutions Ltd
*Your E-mail Address:	Mick.flynn@tracesolutions.co.uk
*Contact Phone Number:	+44 (0)20 7825 1170
*Change Description: Describe the Change/s are needed here. Where possible, be specific to xsd documents,(include the namespace) and elements within those documents.	<p>My approach to this is purely at a business level i.e. non-technical.</p> <p>I would expect more than just a schema submission. I cannot understand the problem this is trying to solve, the flows of data i.e. the entire business case.</p> <p>Some of the new data items have insufficient descriptions to truly understand them. The proposed additions and changes need to be reviewed by OS CRE's Technical Advisory Group for the purpose of checking for duplications, misunderstandings and then harmonisation and this cannot be done without full explanations or a review meeting.</p>
*Why is Change Needed?	To comply with OS CRE's standard process.

Request for Change (RFC)

Supplementary Information

Additional Requesters: Names and Company Affiliations of others who join in this RFC.	
RFC Source/s: Such as: Workgroups or Members with responsibility for the Standard, Non-member organization or activity group.	PIE workgroup and LSDP
